Todd - it was a good discussion yesterday. Both Allen and Brent and I are encouraged with the potential to make some progress on the Gold King investigation.

As to a long term approach to the discharge and operations at Gold King, I will look into the specifics of the sites that you referred to today. Once we have done a little research on this, I can have a more informative/ meaningful discussion with our management.

Let's stay in touch,

Steve

Subject: Yesterday's meeting

Steve-

Thank you for setting up yesterday's meeting, and for your patience on a matter or two.

My brain trust came up with the first example of the Idaho Cobalt project of Formation Capital, where E.P.A. took the lead regulatory agency role and issued a NDPES for the project. The Idaho Cobalt Project was intermixed with the Blackbird Superfund site.

We will keep digging away, pun intended.

For San Juan Corp.,

Todd C. Hennis, Pres.
